

19 JANUARY 2018

Request for Funding

To whom it may concern,

Target Life is a challenging potential developing program for school leavers and students to discover their purpose and to provide a Christian foundation for adult life.

The value that this course can have for an individual and for the kingdom is immeasurably high.

Finances are required in the following field:

The Journey is a country-wide tour that gives perspective on a world out there to discover. The tour is 4 500km long and extends over a period of 11 days.

An additional development camp called Winklespruit is a camp that happens at the end of the year. It serves as the final opportunity to tie together everything that they have learned.

The amount adds up to R7 700 for both tours.

If you feel lead to support this very special case, the opportunity is there. Target life is ready to provide more information or to contact you personally at any time.

Thank you in advance
